### Tooltip Parameters

**i** Select **Left** to display the tooltip to the left of the module, **Right** to display the tooltip to the right of the module, or select **Middle of the page** to center the tip horizontally in the middle of the page.

Position of the tip

Position of info-tip if Middle of the page selected

Option "Middle of the page"

Opening the tooltip on click or on mouseover

Opening the tooltip

Date Format in tooltip

Date Format

Separator for dates

**i** The Date Format function is detecting your current language in Joomla! admin, in order to provide you standard date formats in your culture. If your language is not available in iCagenda, English date formats will be display as default.

In all cases, you also have the option to choose a customizable International standard format, with a separator.
