

Problem about Date and Time Format in Thai Language

Hello, Joomla! Team. First of all, I've thank you to your working on iCalendar. Its amazing component on Joomla!, I love it.

I've use iCalendar on my Multilanguage website (English language and Thai language). In English language, everything is working perfectly but in Thai language my date and time format is not correct. I'll expand detail in pdf attachment file because I want to expand some of step that I testing. Thank you.

About My Website.

1. Working on Intranet (So sorry about not convenient)
2. Joomla! Version 3.4.1
3. iCagenda™ v 3.5.12
4. PHP Version 5.5.15
5. Database Version 5.6.20
6. Use Multilanguage in English and Thai language
7. Already config to language switcher

Problem: Date and Time Format in Thai language on Upcoming Events.

1. In admin page I've setup my schedule follow the picture.

	Status	Approval	Image	Title Category	Date	Access	Author	Language	ID	
					Schedule 3 Category: Test	Next Date : 24 November 2015 - 08:43	Public	Super User	All	5
					Schedule 2 Category: Test Location: AC Tower	Next Date : 20 November 2015 - 08:42	Public	Super User	All	4
					Schedule 1 Category: Test Location: AC Tower 2	Next Date : 12 November 2015 - 15:33	Public	Super User	All	3
					Schedule 4 Category: Test Location: AC Tower 1	Next Date : 26 November 2015 - 13:23	Public	Super User	All	2
					Schedule 5 Category: Test Location: AC Tower 2	Next Date : 30 November 2015 - 14:46	Public	Super User	All	1

2. In English language site.

- Use default iCalenda Template. It's work correct.

	Schedule 5 TEST Monday, 30 November 2015 14:46 AC Tower 2

3. When switch to Thai language, Time and date format not correct follow picture.
- Use default iCalenda Template. Month change to January in Thai language.

Upcoming Events

There are 5 upcoming events

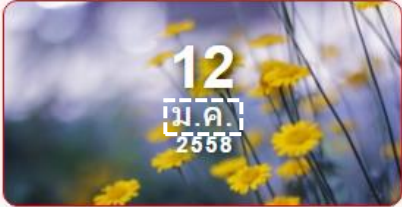

The screenshot displays a list of five upcoming events. Each event card includes a date in a red box, the event title, and venue information. The dates are displayed in Thai format (Day, Month, Year). An orange callout box points to the first event, stating: "Month in Thai language display as 'ม.ค.', its mean January." This indicates that the Thai month 'ม.ค.' (January) is being incorrectly translated or displayed as 'January' in the Thai language interface.

Date	Event Title	Venue
12 ม.ค. 2558	Schedule 1	AC Tower 2
20 ม.ค. 2558	Schedule 2	AC Tower
24 ม.ค. 2558	Schedule 3	
26 ม.ค. 2558	Schedule 4	AC Tower 1
30 ม.ค. 2558	Schedule 5	AC Tower 2

- Use ic_rounded Template. Month on picture change to January in Thai language and Time set to 01:00 every schedule but in month and date format are correct following picture.

Upcoming Events

There are 5 upcoming events

	Schedule 1 วันพฤหัสบดี, พฤศจิกายน 12, 2558 01:00 AC Tower 2 Detail	TEST + INFO
	Schedule 2 วันศุกร์, พฤศจิกายน 20, 2558 01:00 AC Tower Other detail	TEST + INFO
	Schedule 3 วันอังคาร, พฤศจิกายน 24, 2558 01:00 Detail xxxxxxx	TEST + INFO
	Schedule 4	TEST

Month in Thai language display as “ม.ค.”, its mean January.

Month and date format work correctly.

Time not working correct and set to 01:00 every schedule.

So, that is my problem. I think is not problem about Theme Pack. In Addition, I've follow your issue about change date and time format [<http://www.joomla.com/forum/icagenda-help-en/2398-how-to-change-date-and-time-format#10797>].

I've not found my Thai language in that path:

http://mywebsite/libraries/ic_library/globalize/culture/

And found that Translation about Thai language is about 1% in this page.
